Driver 1

LT — Intake (Motor Only)

RT — Intake
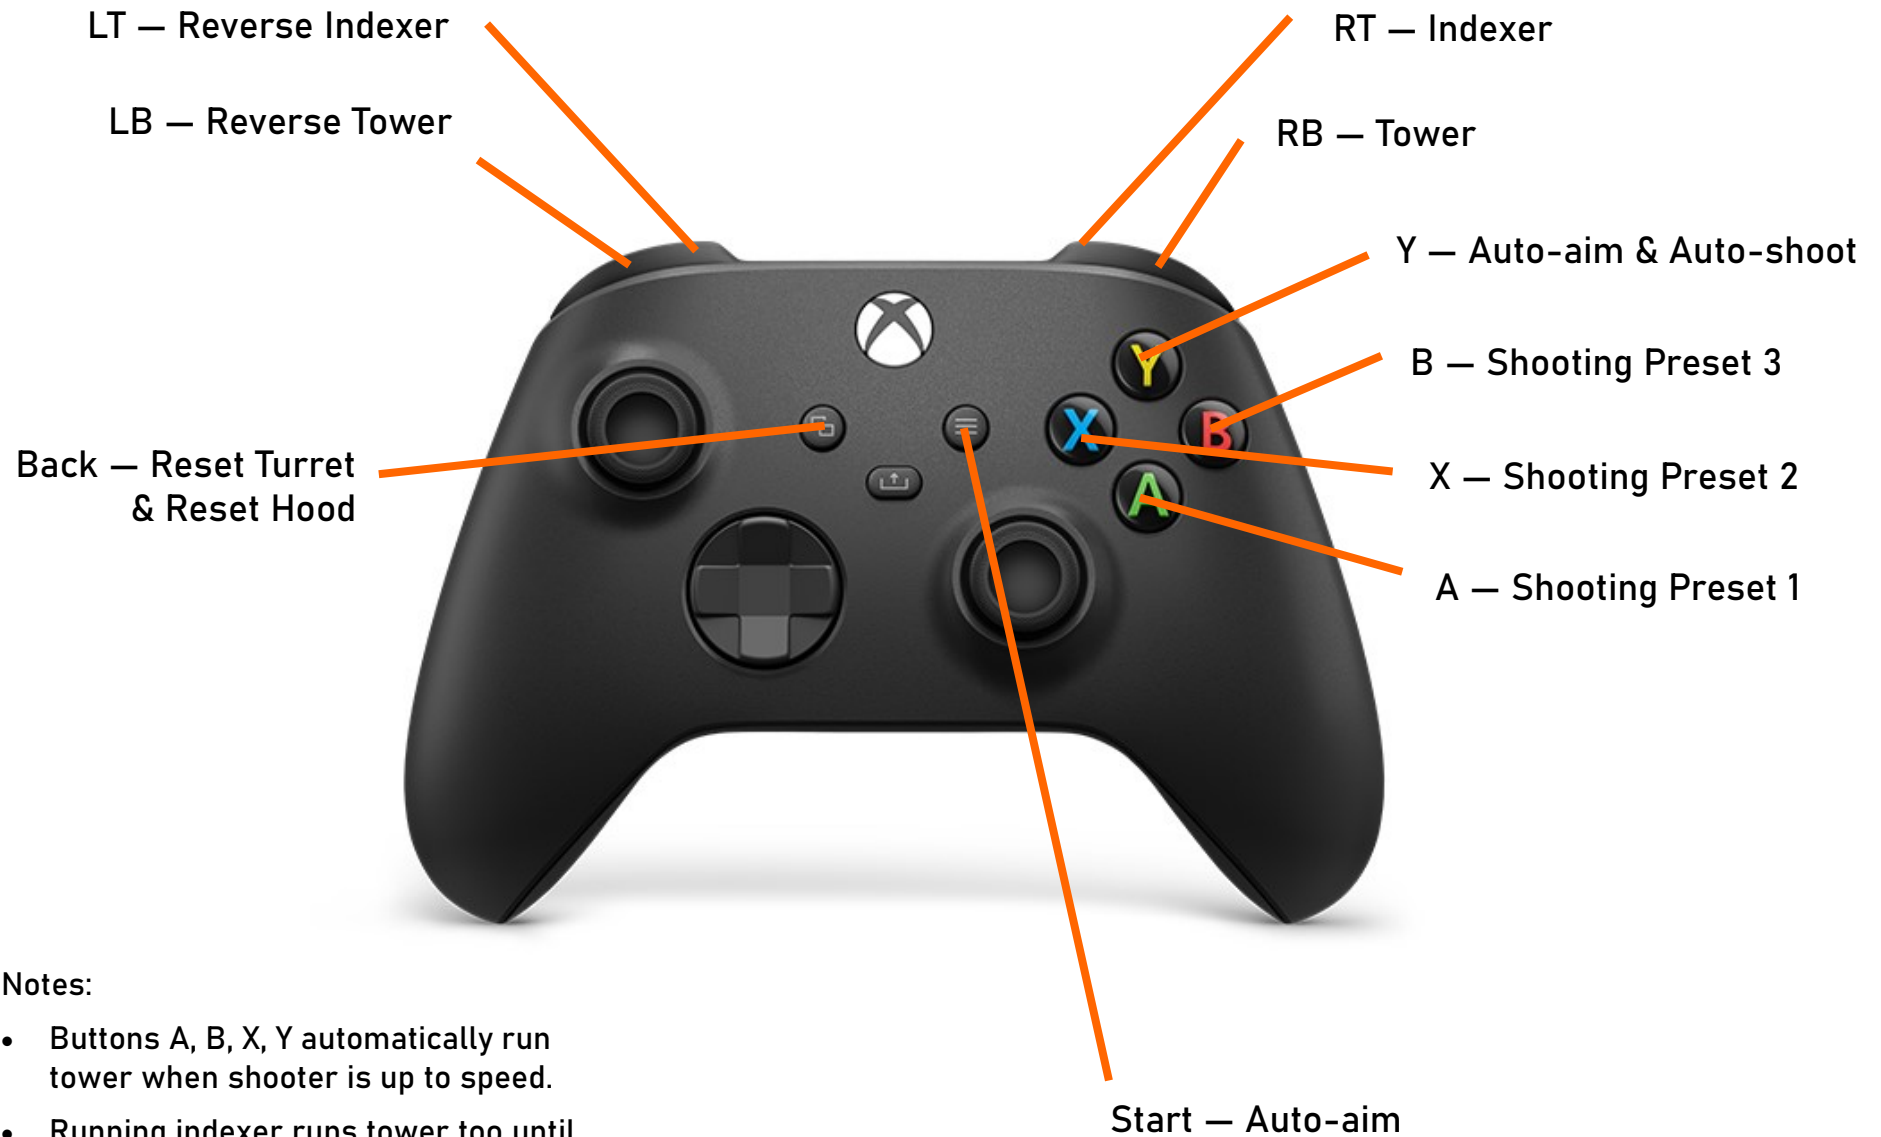

A — Climb

Notes:

- Joysticks run split-arcade drive.
- Joysticks are more precise at lower speeds.
- When climbing, hold button A down until the climber reaches the top, let go, then hold it again to climb.

Driver 2

LT — Reverse Indexer

LB — Reverse Tower

RT — Indexer

RB — Tower

Y — Auto-aim & Auto-shoot

B — Shooting Preset 3

X — Shooting Preset 2

A — Shooting Preset 1

Back — Reset Turret & Reset Hood

Start — Auto-aim

Notes:

- Buttons A, B, X, Y automatically run tower when shooter is up to speed.
- Running indexer runs tower too until balls fill the tower as detected by limit switch.
- Auto-aim will seek a target if it doesn't currently see one.
